EXPERIENCE

2017-2018
MicroTech
Nepal

Web Designer

Used my full potential at this starter company. Employed as web designer, I developed extensive skills working with seniors even when they were distressed. I'm excellent at deescalating situations and finding a way to make our company happy. I learned about content management, problem solving

2016-2017
Saathi Media

Photographer

later, I moved on photography. My job was to compose a shot, understand framing, color and light to create a visually pleasing photograph. Most photographic manipulation is done through computer. Retouching photos, adding details, or other digital additions were made through computer. In long run I learned that Photographers must have an eye on everything before, during and after the shot. Attention to detail makes sure that every hair is in place and nobody is photobombing in the back of the shot.

2014-2016
Saathi Media

Video Editor

As a video editor I used footage, sound and graphics to tell a story. A typical day in my life include creating treatments and storyboards; developing scripts; producing and editing videos and photos for multiple platforms. I was mainly focused on wedding video editing.

ABOUT ME

I am an innovative, ambitious person with excellent interpersonal and communication skills. I am excellent in working solely or with others, who can achieve effective results to a high standard.
